

For anyone who has ever dreamed of being able to really talk to their dogs--and hear what they have to say **BONES WOULD RAIN FROM THE SKY** Akin to Monty Robertss *The Man Who Listens to Horses* and going light-years beyond *The Hidden Life of Dogs* or any training manual, Suzanne Clothier takes a radical new direction in understanding our life with dogs...and our mutual love. Drawing on a lifetime of experience with dogs, this nationally renowned dog trainer brings us astonishing new lessons about our animals--and ourselves. Gently, with intelligence, humor, and unfailing patience, Suzanne Clothier guides us to truly comprehend another creatures mind and heart. You will discover how our dogs see the world from their uniquely canine perspective, how we can meet their deep need for leadership without using force or coercion, and how the laws of canine culture often put our dogs at odds with us and our very human world. Clothiers unparalleled insights into aggression in dogs can help prevent a tragedy, including the unnecessary destruction of a pet. In these pages, you will meet unforgettable dogs who will capture, and perhaps break, your heart. There is Badger--handsome, curious, and perhaps dangerous. Can his threatening behavior be changed? Though doomed by a congenital heart murmur, the winsome pup McKinley offers an unforgettable lesson in living. Then aging Vali brings us to the moment that all dog owners must someday face: the loss of a devoted companion. But what this old dog teaches us in her last days may change you forever. As in no other dog book or training manual, in **BONES WOULD RAIN FROM THE SKY** an extraordinary woman shows us how to find a deep connection with another being and to receive an incomparable gift: a profound, lifelong relationship with the dog you love.
