Battle Earth IV The alien invaders were driven from Earth, but isolated pockets continue to hold out and hinder the recovery effort. Major Mitch Taylors Inter-Allied Company is reorganised into a rapid response taskforce to seek out and destroy all remaining threats. However, when Ramstein is obliterated in an aerial attack, they know that the battle for Earth is not over. With enemy forces remaining in the solar system, the armies of Earth have no choice but to rally together and make an assault against the Moon to secure the safety of their planet. Battle Earth V The alien invaders were crushed on Earth and driven to the edges of the Solar System, but the discovery of how they reached Earth uncovers a deadly threat that must be overcome. Major Mitch Taylors Inter-Allied force, combined with masses of troops and a vast Navy, assembles to take the battle to the enemy in their own lands before they can recover from their losses. Battle Earth VI The counterattack into enemy territory proved the aliens were far stronger than the humans thought. Whilst many got on with their lives in the hope the aliens would not return, Colonel Mitch Taylor knew better. No longer seeking to occupy Earth, the enemy Lord Demiran wants revenge. This time he means to obliterate Earth with a new terrifying weapon of mass destruction that will mean extinction for the human race.
