

When everyone runs, who will stand? For eons a dark force has lurked inside Archalon, waiting. In 2354 the Confederacy set it free. Now the alien uprising is imminent and there's only one person left to stop it. Nova goes where others dare not. She shoots first, talks little, and carries a chip on her shoulder the size of Boullion 5. Her reckless courage is all that stands between the Ancients and the annihilation of the human race. Fear the hero who has nothing left to lose. If you love science fiction, don't miss out on this action-packed adventure!

REVIEWS A strong female lead role has science fiction in an uproar as she steers this genre to the front-line, not the typical scenario. A refreshing change from the traditional romp of sci fi meets fantasy saga. An enjoyable read and I'm looking forward to the sequel. ~Amazon Top 500 Reviewer, Carol Newsom If you are truly a Sci-fi fan then this is the book for you...
