

Shadow Space (The Singularity Conspiracy) (Volume 2)

Two months after the events of Shadow Memories, private investigators Cassie Atwood and Kurt Desmond have spiraled into the abyss. Business is slow. Their relationship is in tatters. But at least life has granted them a temporary respite from the Singularity and ancient conspiracies. Until they're pulled back into the 10,000 year-old alien conspiracy that they thought they had left behind. On the run in San Francisco, desperately searching for a legendary smuggler known only as the Dragon, Kurt and Cassie must journey further down the rabbit hole if they want to save themselves - and the world - from destruction. One problem: this rabbit hole is personal because Shadow, Cassie's estranged father, is at the heart of the conspiracy.
