

Sixth Cycle

In the blink of an eye, the world changed. Danger lurks around every corner. Captain Jake Phillips wakes in his crash landed craft and finds Earth transformed into a frightening new world. He faces two immediate threats that will test his survival skills to the limit. Mutated beings prowl the landscape, hunting humans and searching for the remaining resources. Without a plan in place, the battle will be lost and humanity as Jake knows it will be destroyed. Sixth Cycle is a gritty post-apocalyptic story of survival and adventure.
