Anthem by Ayn Rand Anthem is a dystopian fiction novella by Ayn Rand, written in 1937 and first published in 1938 in England. It takes place at some unspecified future date when mankind has entered another dark age. Technological advancement is now carefully planned and the concept of individuality has been eliminated. Continuing his scientific work, Equality rediscovers electricity. In the ruins of the tunnel, he finds a glass box with wires in it, that gives off light when he passes electricity through it. He decides to take his discovery to the World Council of Scholars, thinking that such a great gift to mankind will outweigh his transgressions and lead to him being made a Scholar. **Top 100 Best-Sellers (Classics):US**> <http://amzn.to/1K9ZzqCUK>> <http://amzn.to/1L3UgOBCanada>> <http://amzn.to/1i02L1h>
