

## Z-Minus: The Zombie Apocalypse Series (Book 6)

The post-apocalyptic series readers are describing as one of the best post-apocalypse stories I've ever read. Once infected, the virus shuts down organs, kills nerve impulses and even reprograms the way we think. The virus becomes us. But the process takes eight hours. If you only had eight hours left to live, what would you do? The ice under Antarctica tells a fascinating story: the Earth's history, revealing its secrets layer by layer. But there is one secret it doesn't yet know, and the researchers at Palmer Station are about to discover it for themselves... What zombie books fans are saying: Are zombies real? You'll believe they are after reading this! I feel like I survived a zombie apocalypse! You'll finish thinking you caught the zombie virus! From the writer who brought you the Blood Memory series and The Swiss Family RobinZOM comes this powerful part in a new zombie trilogy. Z-MINUS. Let the countdown begin.
